BC Parks 2009/10 Year End Report

Executive Summary

The 09/10 BC Parks Year End Report presents important information related to BC Parks. We encourage feedback on both format and content so that we can continue to improve the document and make it as useful as possible for regions, executive and others who are interested in BC Parks' performance on these key measures.

Attendance:

BC Parks is committed to increasing the number of recorded visits by 20% from 2004/05 to 2010/11. We are continuing to make improvements in order to meet that target. Last year, attendance at BC Parks slightly increased from 19.6 million to 20.3 million as a result of good weather conditions. Overall, attendance has increased by about 13% since 2004.

The Peace region gave the strongest results, with day use attendance up by 35.9% and camping up by 3%. In addition to comparatively better weather in this region, sound data tracking practices led to higher accuracy in visitation counts. Attendance also grew in the Lower Mainland, Okanagan, and Skeena regions.

Attendance declined last year in the Cariboo, Kootenay, Omineca, Thompson River, and Vancouver Island regions. The Cariboo region had a significant decline in attendance for Tweedsmuir Park and Bull Canyon Park due to forest fires. The Kootenay region was impacted by late snow melt and rockslides, which caused a decline in attendance for Kokanee Glacier Park. Parking lot closures for capital project purposes were responsible for attendance declines in the Omineca region. Contributing factors to the decreased attendance in the Thompson River include wildfires, campfire bans, and poor fishing conditions. The majority of the decrease for Vancouver Island is due to an overestimate in 08/09 which has been revised for 09/10. Improvements continue to be made in our attendance tracking system, leading to greater quality assurance in the data being reported.

Parks which demonstrated a significant real change to visitation are noted on pages 14 to 17 of this report. Many of the changes in attendance were due to factors outside BC Park's control (e.g. weather, flooding, high gas prices) but some notable increases were due to improved facilities and many of the declines are the direct result of construction activities in or near the park.

Revenues:

In 2009/10 total revenues from recreation user fees increased by about \$1.5M. Increased camping revenues in 09/10 accounted for approximately \$1.2M of this amount. The difference between the percent increases in camping attendance and camping revenue is due to the fact that parks charging higher camping fees generally experienced greater increases in attendance than those charging lower fees. Day use also contributed to the increase with revenues up nearly \$300,000 from 08/09 as a result of better enforcement and increased public acceptance of day use fees. The difference between the percent increases in day use attendance and day use revenue is due to the fact that of the 40 parks that charge day use parking fees, the majority experienced attendance increases. In addition, more reliable parking meters were installed in the Lower Mainland and Vancouver Island, which also contributed to the increase in revenues. The Omineca region saw the largest percent increase in revenue in 09/10 at approximately 20%. Boating revenues declined slightly by 2% in 09/10. Overall, revenue grew in all nine regions of the province in 09/10.

Park Use Permit revenues increased by about 19% in 09/10. The Permit Authorization Services Bureau focused considerable effort in improving its data collection practices. Given that their database has been revamped and new permit categorization was used, comparisons between particular types of permits was not possible. Better analysis on this will be performed in future Year End Reports.

Recoveries:

Recoveries showed a decline between 08/09 and 09/10. This was mainly the result of fewer dollars for Mountain Pine Beetle projects.

Operating Expenditures:

Overall, BC Parks operating expenditures remained stable. Retained fees from contract services increased by about \$1.2M due to more revenues being retained by park facility operators because of the increase in camping, boating, and day use group revenues. This amount was offset by a \$1.1M reduction in net deficiency payments. Other major variances in operating expenditures occurred under goods and services (an increase of approximately \$1.4M) and under fuel management (a decrease of approximately \$0.6M).

Capital Expenditures:

BC Parks reduced their capital expenditures by 37% in 2009/10. This is the result of a significant reduction in land acquisitions and compensation paid for land acquisitions. Expenditures on campground and day use area reconstruction increased in 09/10 by approximately \$2.2M. This was offset by a near \$2.6M reduction for water and sewer systems spending, which was a priority and had received additional funding in 08/09. The overall total investments in facilities remained stable in 09/10.

Natural and Cultural Heritage:

BC Parks Natural and Cultural Heritage budget includes funds to be used towards hazard trees and invasive plants. The Natural and Cultural Heritage section also tracks the number of activities that are, or may be causing the degradation or loss of a protected feature. Currently the number of recorded threats is approximately 2,900. About 20% of those are caused by environmentally related processes. Parks and Protected Areas Division and regions are active in reducing or eliminating many of these occurrences.

Management Planning:

In 2009/10, three final management plans were approved and 31 draft management plans were released for public review. On March 31, 2010 there were 143 management plan projects in progress with 36 in the final stages of development. Across the province, 65.4 % of the areas in the Parks and Protected Areas system have valid management plan direction. This is a slight increase from 2008/09.

Protected Lands System:

In 2009/10 the British Columbia government passed legislation to establish one new ecological reserve and to add private land acquired by the government to improve park values to three provincial parks. In 2009/10, Bert Brink and Serpentine were also established as wildlife management areas under the *Wildlife Act*. In 2009/10 the total number of areas managed by BC Parks was 1,240 (including 251 conservation lands managed for fish and wildlife conservation purposes), amounting to over 13 million hectares of land.

Satisfaction:

PFO performance is slightly down, but continues to stay at a high level as shown by visitor satisfaction ratings which were 78% (index scores rated excellent or above average) in 09/10. The 6% decrease from 08/09 is likely due to a change in survey methodology. Lower response rates, a shorter survey period, and an increased likelihood for unsatisfied campers to fill out an online survey were brought about by this change. Campground visitors remained highly satisfied with the cleanliness of the grounds, sense of security and condition of facilities which received the highest ratings in 09/10. Lowest ratings were given to control of noise and cleanliness of restrooms.

Key Performance Indicators:

	2004/05	2008/09	2009/10	% change from 2004
Attendance (millions of visits)	18.0	19.6	20.3	13%
Recreation User Fee Revenues (millions) ¹	\$ 11.1	\$ 14.2	\$ 16.0	44%
Visitor Satisfaction	80%	84%	78%	-3%

¹ Day use parking fees implemented in 05/06. Park Use Permit fees are not included.

BC Parks 2009/10 Year End Report

Summary of Key Information

Attendance

Visits (in person days)	2008/09	2009/10	Variance	% Change
Day Use Visits	17,067,285	17,532,494	465,209	2.7%
Camping Visits	2,365,520	2,519,665	154,145	6.5%
Marine Visits	179,757	206,662	26,906	15.0%
Total Park Attendance	19,612,561	20,258,821	646,260	3.3%

Source: Attendance numbers from Parks Attendance System (data extracted on June 17, 2010)

Revenue and Recoveries

Revenue	2008/09	2009/10	Variance	% Change
Camping Fees	\$ 13,034,708	\$ 14,233,341	\$ 1,198,632	9.2%

Ski hill revenues	\$ 281,774	\$ 288,189	\$ 6,415	2.3%
Sub-total Park Use Permit Fees	\$ 1,248,256	\$ 1,488,787	\$ 240,531	19.3%
Total Recreation User Fee & Permit Revenues	\$ 15,362,800	\$ 17,087,458	\$ 1,724,657	11.2%

Source: Camping, boating and day use group revenues from Parks Attendance System (data extracted on June 17, 2010); day use parking, Maquinna and film revenues provided by Corporate Services Division; other revenues from Financial Data Warehouse.

¹ 08/09 Day use revenue figure has been revised as it double counted the Maquinna and Film revenues. The 2009/10 increase in revenues is largely due to new more reliable parking machines installed in Vancouver Island and Lower Mainland parks.

Recoveries	2008/09	2009/10	Variance	% Change
Mountain Pine Beetle	\$ 100,000	\$ -	-\$ 100,000	-100.0%

Total BC Parks Operating Budget	\$ 31,561,128	\$ 31,486,455	-\$ 74,673	-0.2%
Total Operating Costs (including contract costs and retained fees)	\$ 45,221,222	\$ 46,673,503	\$ 1,452,281	3.2%

Source: Financial Data Warehouse, budget estimates and staff reports. Contract costs for non-bundled parks were provided by regions. Retained fees from camping, boating and group day use from Parks Attendance System. Other numbers are actual expenditures from Financial Data Warehouse.

¹ Goods and Services include all expenditures and transfers other than the specifics listed and excludes operations permits (which are given below). 2009/10 expenses increased significantly as work related to Mountain Pine Beetles and Fuel Management are now captured here (no longer part of cost-shared programs). Also professional services and operating vehicle expenses increased in 09/10.

² 2008/09 figure has been revised to reflect commissions paid to both PFO's and Tourism BC. The 09/10 number is an estimate as the 09/10 Financial Data Warehouse entries for that year only captured commissions paid to PFOs and not to Tourism BC or other agencies selling these

Capital & Compensation Expenditures	2008/09	2009/10	Variance	% Change
Land Acquisition	\$ 2,767,592	\$ 41,254	-\$ 2,726,338	-98.5%

Total	\$ 342,000	\$ 2,255,000	\$ 87,200	\$ 47,500

Hazard Trees Program

The BC Parks Hazard Tree Program aims to reduce forest fuel hazards in and near park facilities and in the park interface with communities. In 2009/10, the program completed tree removals in several parks including Morice Lake, Carp Lake, Monck, Skihist, Moyie, Ten Mile, Gladstone, Green Lake, MacMillan, Myra-Bellevue and West Arm Provincial Parks. Tree removal was done with the least amount of environmental impact as a result of careful consideration of existing natural, cultural and recreational values within the parks before, during and after completion of the projects. The Fuel Management Program, the Hazard Tree Program and the Ecological Restoration Program have all helped to create ecosystems that are more resilient to wildfire, forest pests and changing climate conditions.

Job Opportunities Program

The Job Opportunities Program is a federally funded program that helps unemployed forest workers find work. BC Parks was able to use the program to fund forest related work noted above in provincial parks and protected areas.

Invasive Plants

BC Parks and partners are working cooperatively to reduce invasive plant species in parks and protected areas throughout the province. In 2009/10, BC Parks signed an agreement with the Invasive Plant Council of BC to facilitate an existing province-wide initiative which included activities such as inventory and manual control of invasive plants. One hundred workers, called the Hotspot crews, inventoried 14,000 hectares and treated almost 400 hectares in BC including projects in parks and protected areas. Regional weed committees provided local information on sensitivities such as and species and habitats at risk. Several projects of provincial concern conducted in parks included treatments on Canada Thistle at Liard River, Mouse-ear Hawkweed at Kokanee Creek and Knotweed at Cowichan.

Cultural Values Assessments

In 2009/10 BC Parks partnered with contractors to complete assessments of the cultural values in selected protected areas. The six projects each resulted in a final report detailing cultural values information and management recommendations. This information will be used to inform the development of draft management plans for these protected areas.

Occurrences of Natural or Cultural Features

Special Features	Occurrences
Geographical	1,886
Biological	2,142
Species at Risk	3,793
Cultural	5,061
Total	12,882

Source: CRA database as of June 2010

The conservation risk assessment maintains an inventory of natural and cultural features that are protected in the protected area system. The inventory includes recorded occurrences of plants, animals, minerals, landforms and cultural sites (both prehistoric and historic). The table shows a summary by broad category of the current inventory as of June 2010.

Number of occurrences that are causing or may cause the degradation or loss of a protected area feature

Region	Threats
Cariboo	231
Kootenay	294
Lower Mainland	528
Okanagan	194
Omineca	243
Peace	105
Skeena	449
Thompson	249
Vancouver Island	610
Total	2,903

Environmental Threats ¹	
Non-native species	333
Geological processes	43
Climate change	29
Forest health	191
Total	596

¹ Environmentally related processes are the cause of about 20% of the total number of threats. The other 80% is the result of direct human activities.

Many of the recorded threats result in action to reduce or eliminate the threat. For example, there are 333 records of non-native species in protected areas. Parks and Protected Areas Division (PPAD) and regions are active in reducing or eliminating many of these occurrences. Some of the actions that Parks and Protected Areas staff are involved in are:

- Direct actions to remove or control non-native plants and animals
- Regional and provincial invasive species committees
- Programs to inform the public about invasive aquatic species
- Partnerships with local governments and NGOs to work on non-native species control
- Specific actions to eradicate invasive cord-grass (Spartan) which is a commitment in the Pacific Coast Collaborative

BC Parks 2009/10 Year End Report Management Planning

Management Planning Status Summary

Protected Land Type	# With Valid Approved Management Plan ¹	% With Valid Approved Management Plan ¹	% Change from 08/09
Provincial Parks	472	76.10%	0.40%
Recreation Areas	6	85.70%	0.00%
Conservancies	0	0.00%	0.00%
<i>Environment and Land Use Act</i> Designations	37	52.10%	0.00%
Ecological Reserves	132	89.20%	0.60%
Subtotal	647	65.40%	0.30%
Wildlife Management Areas	12	48.00%	0.00%

¹ For the purposes of this report a 'management plan' includes several forms of approved protected area management direction products (i.e., master plans, management direction statements, purpose statements and management plans). Only 'valid' management plans are counted. Management plans are considered to be 'valid' if the management plan still provides adequate strategic direction and guidance for the management of a protected area.

Management Planning Projects in 2009/10

Region	Management Planning Performance Measures for 2009/10	
	Draft Management Plans Released for Public Review in 2009/10 ¹	Final Management Plans Approved in 2009/10 ²
Cariboo	0	0
Kootenay	0	1
Lower Mainland	1	0

Vancouver Island	6	0
Total	31	3

¹ All management planning processes now include a minimum of a 30-day web-based public review of the draft management plan.

² Management plans are approved by the Executive Director of BC Parks and, where applicable, other collaborative planning partners.

Management Planning Projects in 2009/10

Region	Management Planning Project Status as of March 31, 2010		
	# of Management Planning Projects at the Initial Planning Stage ¹	# of Management Plans in the Draft Development Stage ²	# of Management Plans in the Final Development Stage ³
Cariboo	0	9	0
Kootenay	0	0	3
Lower Mainland	0	4	4
Okanagan	1	1	2
Omineca	9	2	1
Peace	0	28	0
Skeena	0	27	20
Thompson	0	10	0
Vancouver Island	0	16	6
Total	10	97	36

¹This includes management planning projects at the stage of establishing a planning team and developing a project terms of reference.

²This includes management planning projects at the stage where the planning team is developing a draft management plan. This includes all draft management plans which have not yet been presented to the public for their review.

³This includes management planning projects at the stage where they have already been presented to the public for review and are now being finalized for approval. This does not include management plans which received final approval prior to March 31, 2010.

BC Parks 2009/10 Year End Report

Protected Lands System

Protected Lands Summary

Designation Type	# of Protected Areas	Area (Hectares)
Class A Provincial Park	604	10,356,572
Class B Provincial Park	2	3,778
Class C Provincial Park	14	495
Recreation Areas ¹	7	57,757
Conservancies	143	2,115,262
<i>Environment and Land Use Act</i> designations	71	450,082
Ecological Reserves ²	148	162,597
Total ²	989	13,146,206

¹ The number and area figures for Recreation Areas reflect the outcome of land use plans implemented to date. In some cases, orders in council may not have been passed yet to cancel a Recreation Area (e.g., Kwadacha; Mount Edziza; Stikine River). Accordingly, the actual number of recreation areas designated under the *Park Act* may be greater than the numbers reflected in this table. There is also some overlap between Recreation Areas and Class A parks (e.g., Kakwa) as land use plan decisions have not yet been fully implemented. This overlap has been subtracted from the area figures for recreation areas.

² Three ecological reserves are also included in Class A parks. The area of overlap is approximately 67 hectares. Two ecological reserves are also included in Lac du Bois Grasslands Park established under the *Environment and Land Use Act*. The area of overlap is 270 hectares. These areas of overlap have been subtracted from the total area figure above.

Protected Land Type	# of Areas	Area (Hectares)
Wildlife Management Areas	25	226,275
Other Conservation Lands under BC Parks' Administration	226	25,174
Total	251	251,449

Land Designations in 2009/10

Protected Area Name	Total (hectares)	Date of Establishment/Addition
Bert Brink Wildlife Management Area ¹	915.0	April 9, 2009
Cape Scott Park (addition) ²	0.8	October 29, 2009
Det san Ecological Reserve ³	5.8	October 29, 2009
Enderby Cliffs Park (addition) ²	53.2	October 29, 2009
Naikoon Park (addition) ²	16.6	October 29, 2009
Serpentine Wildlife Management Area ¹	71.0	April 9, 2009

¹ The designations of Bert Brink and Serpentine as wildlife management areas under the *Wildlife Act* provides the Ministry of Environment with additional legal and regulatory tools to ensure their effective management. Bert Brink is named in memory of Dr. Vernon (Bert) Brink, a prominent UBC agricultural scientist and a life-long conservationist who possessed a vast love and knowledge of the outdoors. He received many awards throughout his distinguished career, including the Order of Canada and Order of British Columbia. In 2007, upon receiving the Lieutenant-Governor's Conservation Award, former Lt.-Gov. Iona Campagnolo described Brink as "B.C.'s icon of conservation and sustainability."

² The British Columbia government passed the *Protected Areas of British Columbia Amendment Act*, 2009. This legislation added private land acquired by the government to improve the values in these three Class A provincial parks.

³ The British Columbia government passed the *Protected Areas of British Columbia Amendment Act*, 2009. The legislation established one new ecological reserve. Det san Ecological Reserve is in northwest British Columbia. Det san means "Juniper" in the language of the Wet'suwet'en people.

Land Acquisitions in 2009/10

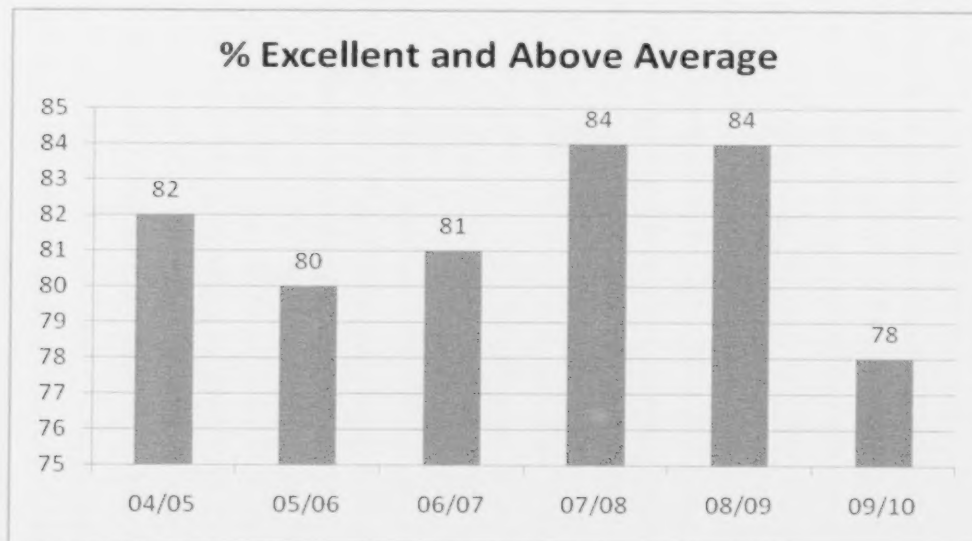

Project Name ¹	Total (hectares)	Date of Acquisition
Lake Kathlyn Creek (proposed conservation land)	0.06	February 3, 2010
Skinner Property (proposed addition to Skaha Bluffs Park)	0.30	February 26, 2010

¹ There were numerous land acquisition projects in progress during 2009/10 but these were the only two projects which were completed by March 31, 2010. See the 'Key Information' section for more information on the financial component of these projects.

BC Parks 2009/10 Year End Report Results From Satisfaction Survey

Ministry Performance Indicator - Index of Visitor Satisfaction

NOTES

Source: Brian Dyck as of November 26, 2009

• Index of Visitor Satisfaction is based on 5 services:

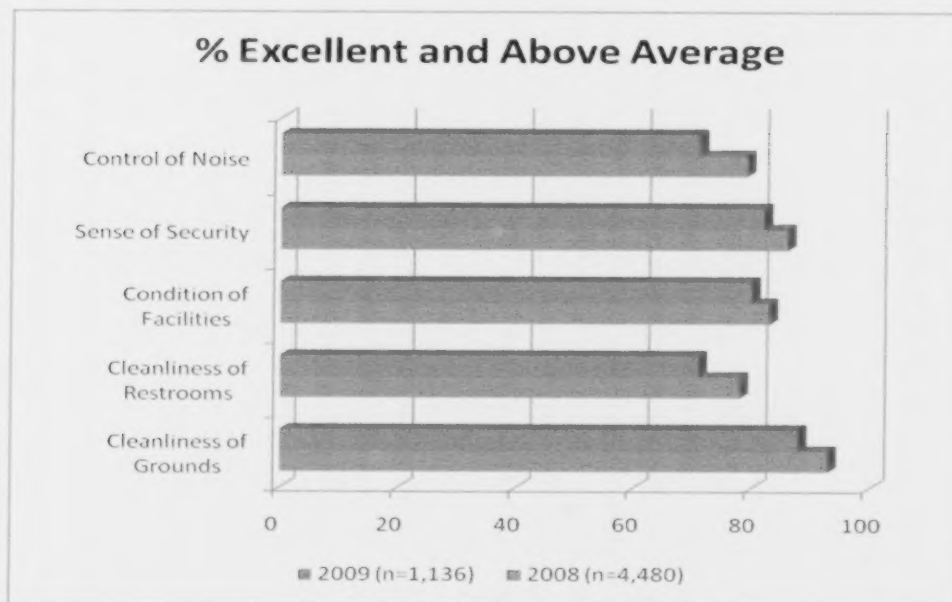

- Cleanliness of Restrooms
- Cleanliness of Grounds
- Sense of Security
- Control of Noise
- Condition of Facilities

• Survey methodology was changed in 09/10 from a mail survey to an online survey. Scores were likely lower due to lower response rates, a shorter survey period, and an increased likelihood for unsatisfied campers to fill out an online survey.

• 09/10 has become a new baseline year for future comparisons

Camper Satisfaction Ratings 2008 vs. 2009

NOTES

• Highest ratings were given to the cleanliness of the grounds and sense of security.

• Lowest ratings were given to control of noise and cleanliness of restrooms.

• The rating that had the lowest decline from 2008 to 2009 was the condition of facilities (down 3%).

Note: The Park Visitor Satisfaction Survey assesses the ministry's effectiveness in achieving client satisfaction with parks and campground facilities and services. The surveys are based on sound statistical principles, design and methodology. All ratings are based on responses of "excellent" and "above average" to the survey questions. Key parks are surveyed on a rotational basis, every 4 years. Surveys are usually undertaken yearly from May 15 to the first week of September. However, the 2009 survey was conducted from July 1 to August 31 as a pilot project to facilitate the change in methodology from a mail survey to an online survey. The Visitor Satisfaction Index is a provincial average based on the overall rating of campers and park visitors in the following five categories: cleanliness of restrooms, cleanliness of grounds, condition of facilities, sense of security, and control of noise.

BC Parks 2009/10 Year End Report

Significant Variances in Camping and Day Use Attendance

Parks with the greatest changes in attendance

This section highlights those parks which show the greatest increases or decreases in attendance. For day use, a greater than 30% and greater than 5,000 total attendance variance criteria is used. For camping the criteria used to highlight critical changes is 10% and greater than 1,000 in total attendance. The appendices provide individual variances in attendance and revenue for all parks.

Parks with INCREASED day use:						Notes:
Reg	Park	DAY USE				
		Attendance				
		08/09	09/10	Difference	% Change	
KO	Dry Gulch Park	20,139	26,376	6,237	31.0%	Increase is due to counter malfunction and the PFO taking visual counts.
KO	Nancy Greene Park	22,253	30,569	8,316	37.4%	Increase due to great summer weather.
KO	Martha Creek Park	23,387	33,968	10,581	45.2%	Increase was caused by good weather and displaced campers in August from other parks on fire evacuation.
KO	Summit Lake Park	12,303	22,253	9,951	80.9%	Increase can be attributed to better park management on the part of a new PFO.
KO	Mount Fernie Park	13,045	26,989	13,944	106.9%	A 5-year average was used due to counter malfunction.
LM	Nairn Falls Park	84,168	121,825	37,657	44.7%	Increase due to better weather.
LM	Sasquatch Park	186,872	247,874	61,002	32.6%	Accurate counts being taken in 2009 (interim contractor running the park for part of 2008). Unprecedented good weather.
LM	Coquihalla Canyon Park	69,580	103,786	34,206	49.2%	Exceptionally good weather.
						Accurate counts being taken in 2009 (interim contractor running the park for part of 2008) Unprecedented good weather. Day use up in July 2009 because of the new Golden Ears Bridge opening.
LM	Golden Ears Park	416,140	640,598	224,459	53.9%	
LM	Shannon Falls Park	123,753	199,563	75,810	61.3%	Increase due to the completion of the reconstructed sea to sky highway which made the park more accessible.
						Accurate counts being taken in 2009 (interim contractor running the park for part of 2008). Exceptionally good weather, plus an accurate day use count for Teapot Hill day use.
LM	Cultus Lake Park	443,646	732,393	288,747	65.1%	
						Accurate counts being taken in 2009 (interim contractor running the park for part of 2008)Traffic counter moved to a different area to capture all visitors that use the day use area. Also exceptional good weather.
LM	Chilliwack Lake Park	36,323	62,024	25,701	70.8%	
	Boundary Creek Park					
OK		17,801	23,335	5,534	31.1%	Increase due to better weather conditions.
OK	Bear Creek Park	118,846	160,332	41,486	34.9%	Attendance is up due to improved trail conditions and better weather.
OK	Christina Lake Park	52,906	71,771	18,865	35.7%	Attendance up due to poor data entry in 2008.
						Better weather, better data entry, and a longer operating season led to the increase in park attendance.
OK	Mara Park	36,169	54,306	18,137	50.1%	
OK	Jewel Lake Park	8,523	13,832	5,310	62.3%	Increase due to better weather conditions.
OM	West Lake Park	60,134	83,013	22,880	38.0%	Increase due to better weather conditions.
PE	Liard River Hot Springs Park	33,338	90,570	57,232	171.7%	Increase due to better collection procedures
PE	Muncho Lake Park	24,147	59,665	35,518	147.1%	Increase due to better collection procedures
PE	Kiskatinaw Park	10,448	24,164	13,717	131.3%	A new more reliable visitation counter system that was installed caused the increase.
SK	Pure Lake Park	21,102	31,476	10,374	49.2%	Increase can be attributed to great summer weather and more locals visiting the park due to high fuel prices.
TR	Juniper Beach Park	15,925	33,674	17,749	111.5%	Increase due to early snow melt and better spring weather.
VI	Juan De Fuca Park	249,347	330,180	80,833	32.4%	Increase due to a greater number of school groups visiting the park.
VI	Montague Harbour Marine Park	58,576	81,795	23,219	39.6%	Increase caused by good weather conditions.
VI	Newcastle Island Marine Park	18,379	25,781	7,403	40.3%	Increase caused by better collection procedures.

Parks with INCREASED camping use:						Notes:
Reg	Park	Camping				
		Attendance				
		08/09	09/10	Difference	% Change	
KO	Wasa Lake Park	20,192	22,362	2,170	10.7%	Increase caused by good weather conditions.
KO	Syringa Park	17,328	19,888	2,560	14.8%	Increase caused by good weather conditions.
KO	Blanket Creek Park	15,802	18,205	2,403	15.2%	Increase caused by good weather conditions.
KO	Summit Lake Park	5,434	8,957	3,523	64.8%	Increase can be attributed to better park management on the part of a new PFO.
LM	Cultus Lake Park	72,013	80,301	8,288	11.5%	Unprecedented good weather.
LM	Rolley Lake Park	19,533	21,994	2,461	12.6%	Accurate counts being taken in 2009 (interim contractor running the park in 2008).
LM	Porpoise Bay Park	16,342	18,406	2,064	12.6%	Increase due to better weather.
LM	Golden Ears Park	92,902	105,142	12,240	13.2%	Accurate counts being taken in 2009 (interim contractor running the park in 2008).
LM	Birkenhead Lake Park	9,949	11,726	1,777	17.9%	Increase due to better weather and the installation of a new water system.
LM	Nairn Falls Park	20,570	24,362	3,792	18.4%	Increase due to better weather.
LM	Alice Lake Park	38,045	47,498	9,453	24.8%	Increase due to better weather.
LM	Silver Lake Park	4,861	7,104	2,243	46.1%	Unprecedented good weather, and stronger accounting of visitation and data collection.
LM	Desolation Sound Marine Park	1,616	4,483	2,867	177.4%	Attendance up due to new counting procedures.
LM	Princess Louisa Marine Park	179	2,211	2,032	1133.9%	Increase in backcountry camping due to higher kayak use.
OK	Okanagan Falls Park	10,954	12,160	1,206	11.0%	Increase due to better weather conditions.
OK	Kettle River Recreation Area	23,971	28,282	4,310	18.0%	Upgraded facilities, such as playground, roads, and washrooms led to higher attendance.
OK	Gladstone Park	18,106	22,125	4,019	22.2%	Increase due to better weather and the fact that the park opened a month earlier in 2009.
OK	Kentucky-Alleyne Park	14,384	17,971	3,587	24.9%	Increase due to better weather and fishing conditions.
OM	Mount Robson Park	46,310	51,837	5,526	11.9%	Increase can be attributed to better weather, lower gas prices, and fewer campfire bans.
OM	Beaumont Park	6,979	8,179	1,200	17.2%	Increase can be attributed to better weather, and the expansion of Molly Hills mine.
OM	Crooked River Park	6,570	7,821	1,251	19.0%	Increase in attendance due to a longer operating season.
OM	Paarens Beach Park	3,888	5,133	1,245	32.0%	Increase due to better weather conditions.
OM	Whiskers Point Park	6,371	9,014	2,643	41.5%	Increase due to better weather conditions and campers diverting from Carp Lake Park which was closed.
PE	One Island Lake Park	2,157	4,826	2,669	123.7%	Good fishing and a new reservation system with availability notices caused the increase.
SK	Meziadin Lake Park	9,213	10,339	1,126	12.2%	Increase can be attributed to great summer weather and more locals visiting the park due to high fuel prices.
SK	Kleanza Creek Park	3,245	5,264	2,019	62.2%	Increase can be attributed to great summer weather and more locals visiting the park due to high fuel prices.
TR	Lac Le Jeune Park	26,512	29,757	3,245	12.2%	Increase due to better weather and public acceptance of the mountain pine beetle problem.
TR	Tunkwa Park	21,366	24,605	3,238	15.2%	Increase caused by better weather and the installation of new horse corrals. Local use also increased due to people staying closer to home to save money in tough economic times.
TR	North Thompson River Park	11,296	13,389	2,093	18.5%	Increase caused by the implementation of the new reservation system as well as more local residents staying at the park.
TR	Momich Lakes Park	5,741	7,280	1,539	26.8%	Increase caused by firefighters battling wildfires camping in the park.
VI	Montague Harbour Marine Park	13,946	15,434	1,488	10.7%	Increase caused by good weather conditions.
VI	Loveland Bay Park	10,160	11,270	1,110	10.9%	Increase caused by good weather conditions.

VI	Englishman River Falls Park	16,678	18,582	1,904	11.4%	Increase caused by good weather conditions.
VI	Rathrevor Beach Park	78,150	87,142	8,992	11.5%	Increase caused by better collection procedures and less snow in the offseason.
VI	Gordon Bay Park	31,354	35,053	3,699	11.8%	Increase caused by good weather conditions.
VI	Miracle Beach Park	43,987	49,469	5,482	12.5%	Increase caused by good weather conditions.
VI	Ruckle Park	16,365	18,592	2,227	13.6%	Increase caused by good weather conditions.
VI	Bamberton Park	13,178	15,075	1,898	14.4%	Increase caused by good weather conditions.
VI	Juan De Fuca Park	21,194	24,480	3,286	15.5%	Increase caused by good weather conditions.
VI	Elk Falls Park	25,875	30,045	4,170	16.1%	Increase caused by good weather conditions.
VI	Goldstream Park	53,037	62,362	9,325	17.6%	Increase caused by good weather conditions.
VI	French Beach Park	23,677	28,397	4,720	19.9%	Increase caused by good weather conditions.
VI	Stamp River Park	5,667	6,973	1,306	23.0%	Increase due to great weather and fishing conditions.

Parks with DECREASED day use:						
Reg	Park	DAY USE				Notes:
		Attendance				
		08/09	09/10	Difference	% Change	
CA	Bull Canyon Park	11,361	3,451	-7,910	-69.6%	The region was under a campfire ban last year. Also the park did not open till June 15th.
CA	Tweedsmuir Park (South)	35,851	22,411	-13,440	-37.5%	Turner Lake Chain closed all of August due to forest fires.
KO	Norbury Lake Park	20,276	26,376	6,100	30.1%	Park opened late due to late snow melt.
KO	Wasa Lake Park	222,481	87,441	-135,041	-60.7%	Attendance was entered as a large overestimate in June 2008 thus skewing the results.
KO	Whiteswan Lake Park	213,969	132,748	-81,221	-38.0%	Decrease in attendance was caused by forest fires in the area.
KO	Syringa Park	89,401	57,341	-32,060	-35.9%	Park was closed earlier in 2009 due to service reductions.
LM	Stawamus Chief Park	379,285	180,198	-199,087	-52.5%	Decrease to attendance can be attributed to highway construction around the parking lot.
LM	Murrin Park	206,423	113,684	-92,740	-44.9%	Decrease to attendance can be attributed to highway construction around the parking lot.
OM	Rearguard Falls Park	53,946	0	-53,946	-100.0%	Parking lot was closed off for the summer due to capital projects. Therefore no attendance was collected.
SK	Tyhee Lake Park	111,636	64,859	-46,777	-41.9%	Campground closed early in 2009/10.
TR	Tunkwa Park	56,599	39,403	-17,196	-30.4%	Decrease caused by poor fishing conditions.
VI	Macmillan Park	842,048	445,785	-396,263	-47.1%	Inaccurate 2008 attendance. Visitors were being double counted.

Parks with DECREASED camping use:						Notes:
Reg	Park	Camping				
		Attendance				
		08/09	09/10	Difference	% Change	
KO	Kokanee Glacier Park	2,477	1,075	-1,402	-56.6%	Attendance down due to late snow melt as well as rockslides occurring throughout the summer.
LM	Chilliwack Lake Park	36,650	27,126	-9,523	-26.0%	Camping numbers down early in the season due to snow.
LM	Garibaldi Park	10,224	8,355	-1,869	-18.3%	Attendance decreased due to wildfires in the area.
OK	Cathedral Park	9,690	2,650	-7,040	-72.7%	The presence of wildfires in the area persuaded campers to stay out of the park.
OK	Inkaneep Park	2,525	1,299	-1,226	-48.5%	Park's operating season was cut short in 2009 due to service reductions.
OK	Fintry Park	30,611	23,238	-7,373	-24.1%	Attendance down due to the presence of wildfires.
OK	Otter Lake Park	10,893	9,667	-1,226	-11.3%	Attendance was down due to poor air quality caused by forest fires as well as poor weather conditions.
OM	Carp Lake Park	4,416	0	-4,416	-100.0%	Park was closed due to mountain pine beetle cleanup.
TR	Roche Lake Park	15,590	11,933	-3,658	-23.5%	Attendance declined due to campfire bans.
TR	Juniper Beach Park	18,992	16,896	-2,096	-11.0%	Decrease caused by nearby wildfires as well as a shortened operating season.

Source: 08/09 and 09/10 data from Parks Attendance System (extracted on June 17, 2010) and Corporate Services Division (extracted on June 23, 2010).

Note: Earlier data from Historical Trends report prepared by Mina Nia, September 2006

Note: The difference between the percent increases in day use attendance and day use revenue is due to the fact that of the 40 parks that charge day use parking fees, the majority experienced attendance increases. In addition, more reliable parking meters were installed in the Lower Mainland and Vancouver Island, which also contributed to the increase in revenues.

BC Parks 2009/10 Year End Report

Camping Trends by Region

Source: 08/09 and 09/10 data from Parks Attendance System (extracted on June 17, 2010).

Note: Earlier data from Historical Trends report prepared by Mina Nia, September 2006

Note: The difference between the percent increases in camping attendance and camping revenue is due to the fact that parks charging higher camping fees generally experienced greater increases in attendance than those charging lower fees.
